Public Service Commission???

Annual increases to SCE&G. Everyone is supposed to live within their means and I'm sure they could do it as well. Exp: Why do they advertise on TV? They are practically a Monopoly. I worked for a utility for 26 years and saw a lot of waste. Whoever is responsible for granting these increases are idiots? I need a new roof. Can I contact the Government to give me an increase in my Social Security? Then SCE&G have to Gaul to ask people to contribute to the Woodyard Fund for people that can't afford their service. I guess there will be 2 brochures in our bills if they get this raise which I'm sure they will.
